## STUDENT HANDBOOK

### Section 6 – Student Facilities

---

#### Training Facilities

Specific information on training facilities at all of our campuses and training centres are either found on our websites or by contacting Student Advisors.

Students are always welcome to contact ALG to arrange a tour of our facilities.

---

#### Library Facilities

ALG does not have a privately owned Student Library on campus. However our websites provide details of both:

- Online library resources provided by ALG and
  - Addresses of the closest publically accessible libraries students can access
- 

#### Disabled Facilities and Services

The majority of campuses and training centres are all wheelchair accessible and have access to disabled toilets on the premises.

In some circumstances, training facilities are not directly under control of ALG so we encourage any prospective student who has a disability to contact ALG with their specific needs to ensure we can accommodate them prior to enrolment.

---

#### First Aid

ALG has First Aid kits available on all our main campuses.

Students should also note, the First Aid kit is equipped with occlusive bandages for student use if students have minor skin lesions.
